Verbal Description	Venn Diagram
Heather asked her classmates if they went to a movie, a play, a concert, or any combination of those events during the last month. The Venn diagram represents her data.	**Students Attending Events** Movies Plays 15 2 5 1 1 1 3 Concerts
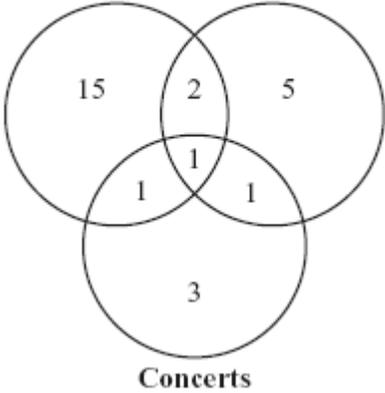

Interpreting the data:	Analysis
1. How many students attended all three events? 2. How many students attended only movies? Write <u>two</u> more questions from the data and include your answers. Be able to defend your questions and answers.	Based on the diagram, what is the total number of Heather's classmates who went to a concert during the last month? A. 3 B. 4 C. 5 D. 6
