Name _____ HmRm/POD_____ Link Sheet: Communicating and connecting what we know and understand about line plots.

Verbal	Data Set
Write your poem, nursery rhyme or haiku. Skip a line between each verse.	Record the data set. Place a comma between each value. Circle the least and greatest values.
Graph	ANALYSIS
Create a line plot to display the data	 Write the number of letters above each word in your poem or haiku. How many words are there? What does the frequency represent? Write the symbol that represents the frequency. Setup the line plot. Clues: Label the graph: title, line, frequency
<i>←→</i>	Choices: number of letters words
