The registration process

Go to the district login page
Select Register as a student
fill out a teacher registration from
call tf.php with add request
call TeacherMgr with add request
return to district login page to prompt user for the
teacher's userid/password they just created.
or fill out a student registration from
call sf.php with add request
call StudentMgr with add request
return to district login page to prompt user for the
student's userid/password they just created.

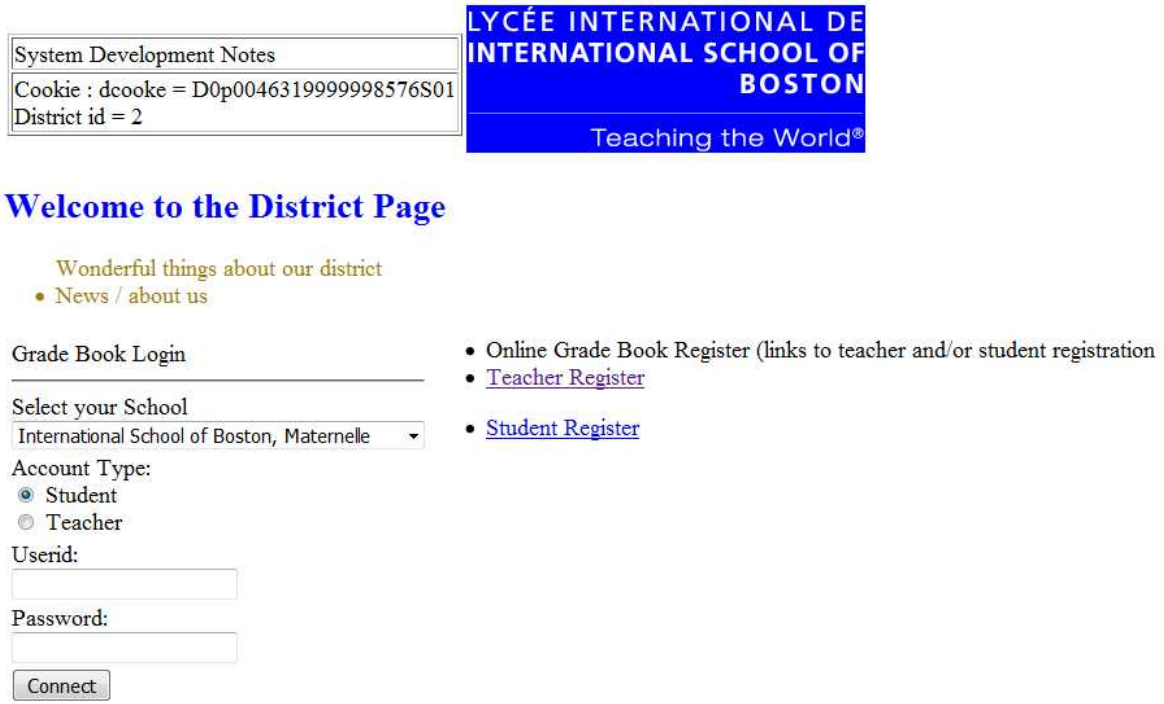

Use the file

html/login_ib.php as you default login screen for district 2

https://team2onlinegradebook-mrbrennan.c9users.io/html/login_ib.php

When the screen is generated a cookie with the district ID will be set.
A cookie is a name=value pair that is stored in the web browser. When you click on any link or submit any form this name=value pair will also be sent to the server, so the district id will never need to be stored on a form.

When login_ib_php is called with no parameters, it is populated with the template login_ib_full.tmpl

System Development Notes
Cookie : dcooke = D0p0046319999998576S01 District id = 2
