#### STATION I

**Graphs of Linear Functions:** Cut out the boxes below and group the graphs according to slope: negative, zero, positive.

1.	2.
3.	4.
5.	6.
7.	8.

#### Station N

Use the 3 marker boards provided. Graph lines and write equations to meet the conditions given for each Markerboard:

##### First Markerboard:

Graph 3 parallel lines. Label each with its equation.

##### Second Markerboard:

Graph 3 lines that have a y-intercept of  $-2$ . Label each with its equation.

##### Third Markerboard:

Graph and label the following 3 lines with their equations:

- Line L: This line has a slope of 0.
- Line H: This line is parallel to Line L.
- Line K: This line is perpendicular to Line L.

### Station E

Complete the Link Sheet to represent the information about Irina's Exercise Program in multiple ways. Also, use the information to answer the question in the Communicate box.

#### Irina's Exercise Program

Currently, Irina exercises a total of 135 minutes during each week. She is planning to begin the following new exercise program.

- The exercise program will last 6 weeks.
- During each week of the exercise program, she will exercise 15 minutes more that she exercised the previous week.

Adapted from 2006 MCAS Mathematics Assessment Test  
Grade 8 Question 28

### Station E

Communicating what we know about:

#### Irina's Exercise Program

Currently, Irina exercises a total of 135 minutes during each week. She is planning to begin the following new exercise program.

- The exercise program will last 6 weeks.
- During each week of the exercise program, she will exercise 15 minutes more that she exercised the previous week.

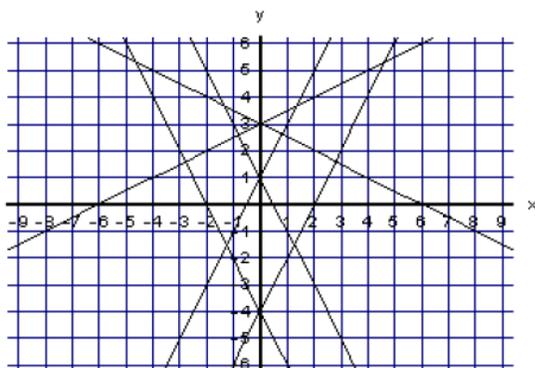

Table	Graph																
<p>Minutes of Exercise During Each Week</p> <table border="1"> <thead> <tr> <th>Week (<math>w</math>)</th> <th>Number of Minutes (<math>n</math>)</th> </tr> </thead> <tbody> <tr><td>0</td><td>135</td></tr> <tr><td>1</td><td></td></tr> <tr><td>2</td><td></td></tr> <tr><td>3</td><td></td></tr> <tr><td>4</td><td></td></tr> <tr><td>5</td><td></td></tr> <tr><td>6</td><td></td></tr> </tbody> </table>	Week ( $w$ )	Number of Minutes ( $n$ )	0	135	1		2		3		4		5		6		
Week ( $w$ )	Number of Minutes ( $n$ )																
0	135																
1																	
2																	
3																	
4																	
5																	
6																	
Equation	Communicate																
<p>For the data shown in the table, write an equation that shows the relationship between <math>w</math> and <math>n</math>.</p>	<p>Based on the equation that you wrote, what is the total number of minutes Irina will exercise in week 20 if she continues her exercise program beyond 6 weeks? Show or explain how you got your answer.</p>																

### Station A

This is a graphing calculator station. Use 6 linear functions, in Y1-Y6, to create the pattern shown below.

The following window was used to create the pattern:

Xmin = -9.4  
Xmax = 9.4  
Xscl = 1  
Ymin = -6.2  
Ymax = 6.2  
Yscl = 1  
Xres = 1

### Station R

#### **MATCHING STATION**

(Use with Algebra Game-Linear Deck b)

At this station, you will need to organize the cards into 4 sets of 5 cards. For each card G1—G4, match the graph to its equation, table of values, slope, and y-intercept. Fill in your answers:

Graph	Equation	Table of Values	Slope	Y-Intercept
G1				
G2				
G3				
G4				

#### **Alternate STATION R**

##### **IT'S A LINEAR MATCH UP**

##### **Lesson Overview:**

Match the graph cards to the cards that give the corresponding equation, set of table of values/ordered pairs, and description. Then, complete the extension activity.

##### **Directions:**

- Work in pairs or groups.
- No graphing calculator or computer may be used.
- Complete the matching and record your answers below.

GRAPH	EQUATION	TABLE OF VALUES (ORDERED PAIRS)	DESCRIPTION
G11			
G12			
G13			
G14			
G15
